

PROJECT INFORMATION SHEET

Owner: Virginia Railway Express
Woodbridge, VA

Project Description: Shelters Direct was contracted by Virginia Railway Express to provide a total of six windscreens to be located at their Woodbridge Station in Woodbridge, VA. Four of the six windscreens were 3x12 full glass aluminum S-shaped with the remaining two being 4x12 full glass, aluminum U-shaped. All six of the windscreens were clear anodized with no vents, although vents are offered. Each of the windscreens also featured stainless steel epoxy anchors per the customer's request. Additionally, Shelters Direct was contracted to install all six of these windscreens on site.
