

PROJECT INFORMATION SHEET

Owner: Baltimore/Washington International Thurgood Marshall Airport
Glen Burnie, MD

Project Description:

Shelters Direct was contracted to manufacture a 14 x 38 steel canopy that would be used for storing dirt and debris that would be picked up in and around this area of the airport grounds by a street sweeper.

This project consisted of:

- PE Stamped drawings and calculations
- Excavation and pouring of two footers
- Installation and erection of the canopy
- Painting of the columns
