

PROJECT INFORMATION SHEET

Owner: Charlotte Hall Park & Ride
Charlotte Hall, MD

Project Description: Shelters Direct was subcontracted to provide (4) four 5 foot x 15 feet Aluminum transit shelters for the Charlotte Hall Park and Ride in Charlotte Hall, MD. The shelters consisted of 6063-T5 aluminum alloy extrusions with a dark bronze anodized finish. It featured a bronze tinted polycarbonate, vented standing seam hip style roof. Each had tempered safety glass, two 36" openings, bottom ventilation and a 10 foot aluminum bench with backrest that was attached directly to the framing of the shelter. Shelters Direct was also commissioned to do the offloading and assembling of the shelters on site.
