

PROJECT INFORMATION SHEET

Owner: Delaware Department of Transportation
New Castle County, DE

Project Description:

The Delaware Department of Transportation needed a means to provide sheltered on-site fueling to DeIDOT employees. Shelters Direct was contracted to provide design/build construction services for the fueling station. In conjunction with affiliate Tanks Direct, Shelters Direct provided a complete turnkey solution for the station. The site includes a 40' x 70' pre-engineered steel canopy, a 12,000 gallon double-wall UL 142 soy biodiesel tank and a 6,000 gallon double-wall gasoline tank .
