

PROJECT INFORMATION SHEET

DuPont Fabros Technology

Owner: DuPont Fabros
Ashburn, VA

Project Description: Shelters Direct provided this 10x12 aluminum equipment enclosure. This enclosure features a containment floor to prevent leakage from possible fuel or oil spill, a thermostat controlled exhaust fan with gravity louvers to maintain consistent temperature, and a wall mounted electric heater and a 125 amp 3-phase 4-wire, 240/120 volt unit with 12/24 open circuits load center.
