

## PROJECT INFORMATION SHEET

**Owner:** National Institutes of Health (NIH)  
Bethesda, MD

National Institutes  
of Health

### Project Description:

When a large national competitor to Shelters Direct failed to deliver on the new entrance gate guard booths at NIH in Bethesda, MD the Owners Representative (Brown & Root Services) and the general contractor called on Shelters Direct to provide immediate assistance in taking over the contract. The result in our ability to quickly provide pricing, drawings and expedited lead times on stainless steel UL 752 Level 3 bullet resistant guard booths resulted in seven (7) booths being ordered. These customized booths were manufactured with stainless steel and provided overhangs to keep guards dry in foul weather.
