

PROJECT INFORMATION SHEET

Owner: Township of South Orange
South Orange, NJ

Project Description: The Village of South Orange Township purchased (3) three 6x15 aluminum transit bike shelters from Shelters Direct. Shelters Direct not only manufactured these shelters, but provided the installation of the shelters. This included having a crew build the shelters on site as they are shipped knocked down and crated. One unique feature of these shelters is the addition of the solar panel kits that aid in lighting the shelters in the evening.
