

## **PROJECT INFORMATION SHEET**

**Owner:** Union County Court House  
Elizabeth, NJ

**Project Description:** Shelters Direct manufactured and installed one 6x8 UL 752 bullet resistant level III guard booth for the Union County Court House in Elizabeth, NJ. Since it was required to shut down the street to install this guard booth, Shelters Direct unloaded and anchored the building with the use of a boom truck in a very efficient manner. The guard booth features sliding doors and windows, UL752 level III bullet resistant walls and windows as well as an air conditioner, heater and security lights.
